## Exercise 2- Pie Charts

1) This pie chart shows the results of a
survey into brands of coffee bought by
900 people.
Use the pie chart for information and
calculate the number of people who
buy each brand of coffee.

2)

HOBBY	Number of Pupils	Calculation	Angle
Sport	102	$\frac{102}{240} \times 360° =$	153°
Music	54		
Reading	60		
Collecting	18		
Other	4		
No hobby	2	$\frac{2}{240} \times 360° =$	3°
	240		360°

The table above shows information on 240 people who were asked
what their favourite hobby was.

Copy and complete this table and then display the information on a
Pie Chart.
