8. James is planning a holiday to Italy. Below are flight prices for two different airlines. Which should he choose?

	Easyfly	Scottish Airways
Glasgow -> Rome	£186	£207
Rome -> Glasgow	£171	£154

## ANSWERS

1.  $£55 + £28 = £83$
2.  $£92 + £16 = £108$
3.  $£180 + £464 = £644$
4.  $£562 + £213 = £775$
5.  $156 + 396 = 552$  miles
6.  $£499 + £798 = £1,297$
7. Easyfly =  $£186 + £171 = £357$   
Scottish Airways =  $£207 + £154 = £361$   
He should choose Easyfly
8.  $£895 + £259 = £1,154$   
Yes, she can afford them
