

N4 Applications of Maths – Measurement

1. Write down **2** things that would be measured using:

- a) centimetres b) kilometres c) metres d) millimetres

2. The main instruments we use to measure length are:

ruler	tape measure	metre stick	trundle wheel
-------	--------------	-------------	---------------

Write down which one you would use to measure each of the following:

- (a) the distance round a football pitch
- (b) the length of a pair of trousers
- (c) the width of your hand
- (d) the length of your bedroom.

3. Measure each of these pictures using a ruler and give your measurement in **both centimetres (cm)** and **millimetres (mm)**:
