

N4 Applications of Maths – Scale Drawings

1. This is a scale drawing of an articulated lorry

- (a) Measure the length and breadth of the drawing.
- (b) Use the scale given to write down the actual length and breadth of the lorry.

2. What is the actual length of this boat?

3. What is the actual height of this house?

4. A giraffe is measured to be 3m tall in real life. Make a scale drawing of the giraffe using the scale 1cm = 0.25m.
